2.8

(1) What Moodle Is

- Moodle is the Learning Management Platform of the Vocational Training Council used to enhance learning and teaching.
- Every Moodle user can be a potential teacher and a student. Collaborative learning is encouraged.
- The upgraded Moodle Platform (version 2.8) is launched in AY2015/16.

* Moodle stands for **Modular Object-Oriented Dynamic Learning Environment**

(2) Logging in Moodle Platform

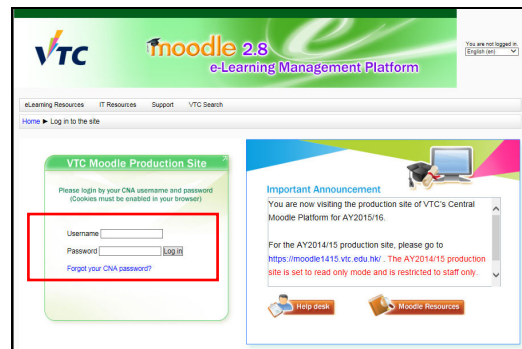

You can access the Moodle platform via either way as shown below. Enter your CNA (a 9-digit student number) and CNA password.

- VTC MyPortal (<https://myportal.vtc.edu.hk>)

The MyPortal Login Page

- VTC Moodle Platform (<https://moodle.vtc.edu.hk>)

Remarks:

You should first activate your Computing and Network Account (CNA) before you access the Moodle platform. (<https://cnatools.vtc.edu.hk/>)

(3) My Profile

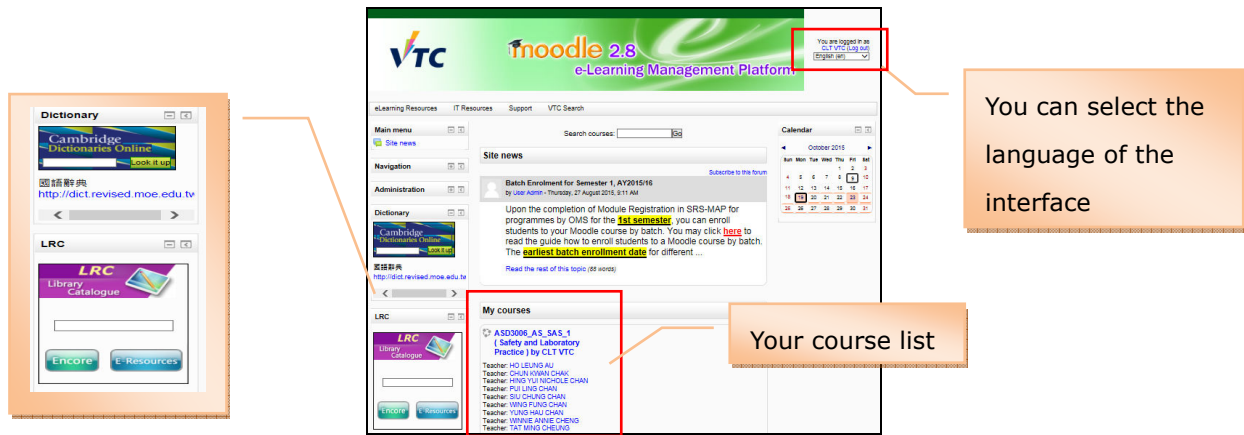

Each user (teachers and students) has a personal profile including information such as name, photo, country, city/town, email address, course profile as well as first and last access. Your photo is automatically imported from the Student Record System (SRS). You will be able to see the personal photo of your teachers and classmates in some of the course activities such as forum.

My Moodle Page

- When you click “**My Home**”, you can access “**My Moodle Page**” where you can customise your course homepage and manage your private files. Students have **1GB of storage space** for personal use.

Remarks:

If you cannot find a VTC module you are studying, please contact your teacher direct.

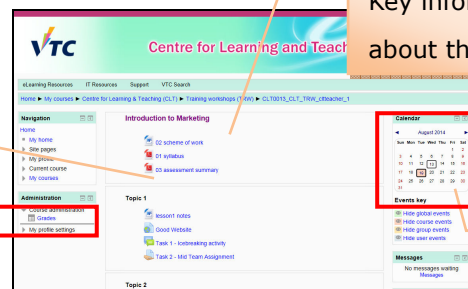

(5) Moodle Course

On your course homepage, you may have access to

- some key information about the course such as syllabus, scheme of work and assessment strategies;
- learning resources provided by your teacher such as handouts, PowerPoint files, web links, etc.;
- interactive activities such as forum for discussion and communication;
- assessment activities such as assignment and quiz;
- your “**Grades**”; and
- some entries in the “**Calendar**”.
